EXPERIENCE

JULY 2023 – PRESENT

Enterprise Resource Planning (ERP) Specialist at Al Safwa Hospital

- I am working on the PrimeCare ERP system, developed by Khabeer Group, to manage hospital operations efficiently.
- Before its implementation, I trained employees, gathered their requirements, and ensured the system met their operational needs by coordinating between them and the system providers.
- Currently, I am responsible for monitoring, troubleshooting, and optimizing the financial modules of the ERP system, ensuring smooth financial operations within the hospital.
- I actively analyze system issues, provide solutions, and enhance workflows to improve efficiency and user experience.

SEP 2022 – OCT 2022

Intern at ITI Front-end Internship

- I successfully developed a simple responsive ecommerce project using Html, CSS, React. It featured cart, filtering functionalities, and it was essential in securing my internship qualification.

EDUCATION

JULY 2023

Bachelor's Degree, Faculty of Commerce and Business Administration, Helwan University

- Major: BIS Department.
- Grade: Excellent with honors | 3.78 GPA

OCT 2020

- GitHub: https://github.com/MuhAymanZ/Grad-Project

TeleStore React Website | ITI Internship Project
- It is a dynamic frontend ecommerce website, It has features like adding/removing to/from cart, filtering the products and it is fully dynamic and responsive.
- GitHub: https://github.com/MuhAymanZ/telestore-ecommerce
- Demo: https://telestore-ecommerce.vercel.app/

WorldWise React Website
- WorldWise is a web application designed for travelers to capture moments and take notes about their journeys in different countries. By selecting the countries they have visited, users can write about their thoughts and feelings regarding each destination.
- GitHub: https://github.com/MuhAymanZ/worldwise/
- Demo: https://worldwise-nine.vercel.app/

Popcorn React Website
- Popcorn is a web react app for rating movies you have watched. Movies are dynamically fetched from an API (Omdb). You can search, select, see movies details, rate and delete movies from the watched list.
- GitHub: https://github.com/MuhAymanZ/Popcorn
- Demo: https://popcorn-beryl.vercel.app/

React Quiz Website
- React Quiz App is a simple quiz application that dynamically fetch questions from a json-server, and track score of answering right within the time limit for the quiz.
- GitHub: https://github.com/MuhAymanZ/react-quiz
- Demo: https://react-quiz-snowy.vercel.app/
