Web Developer (Front-end ReactJs)

SUMMARY

As a fresh graduate from the BIS department, I have practical experience by building several projects and I've acquired certifications in various technologies.

My primary interest is in computers and software topics. I am dedicated to ongoing learning and actively seeking opportunities to expand my knowledge and skills in this field.

EXPERIENCE

SEP 2022 – OCT 2022

Intern at ITI Front-end Internship

- I have completed a comprehensive course package covering various fields, including:
  - HTML & CSS
  - JavaScript
  - Modern JS (ES6)
  - React
  - Freelancing Basics
  - UX Design Fundamentals
  - Getting started as a freelancer (Upwork)

- I successfully developed a functional ecommerce project using React, which was essential in securing my internship qualification.

EDUCATION

JULY 2023

Bachelor's Degree, Faculty of Commerce, Helwan University

- Major: BIS Department.
- General Grade: Excellent (A+)
- GPA: 3.78

Web Design for Everybody Package, University of Michigan, Coursera

- Successfully Completed The Full Package
- Credentials :
  - HTML5 : D6NQRJBF8F8U
  - CSS3 : ZD2AH4XALXCD
  - JavaScript : MFZD8VCDTLBE
  - Responsive Design : 8HLE354CLZNE
  - Capstone : 9P6JTVNA9HP6

PROJECTS

College Council Management System | Graduation Project

- It is a web-based platform has been developed to improve council member collaboration and meeting management. It facilitates effective decision-making by providing a structured approach to planning and recording discussions on different topics.
- I was and mainly responsible for the frontend part, by constructing the layout and transforming the UI elements into a performing, responsive website.
- Grade: Excellent (A+)
- GitHub: https://github.com/MuhAymanZ/Grad-Project

TeleStore React Website | ITI Internship Project

- It is a dynamic frontend ecommerce website, It has features like adding/removing to/from cart, filtering the products and it is fully dynamic and responsive.
- GitHub: https://github.com/MuhAymanZ/telestore-ecommerce
- Demo: https://telestore-ecommerce.vercel.app/

WorldWise React Website

- WorldWise is a web application designed for travelers to capture moments and take notes about their journeys in different countries. By selecting the countries they have visited, users can write about their thoughts and feelings regarding each destination.
- GitHub: https://github.com/MuhAymanZ/worldwise/
- Demo: https://worldwise-nine.vercel.app/
